	Highland Heather DARK PURPLE	Rich Razzleberry	Blackberry Bliss

Stampin' Up! Timeless Tulips Tips

- ❖ Create a punch template by punching the Tulip Builder with cardstock. Line up the large tulip stamp and the petal stamp in the punched holes, with the back of the stamp (flat side) facing up.
- ❖ Place a clear block over the stamps to position for perfectly aligned stamp-to-punched images.
- ❖ Stamp images with chosen ink onto chosen cardstock. Depending on the amount of ink in each ink pad, images will vary. Experiment and have fun!
- ❖ Sponge all outer edges of large tulip and petal with chosen ink. Then sponge from bottom of tulip and petal toward middle to create more depth.
- ❖ Adhere petal to large tulip, lining up curved bottom and allowing wider top petal peaks.
- ❖ Share your tulip garden with someone you love!
